

RP-6004

Pressure Blocking Compound

A specialized compound for plugging plastic insulated cables.

RP-6004 Pressure Blocking Compound is a non re-enterable compound that may be used for plugging plastic insulated cables or the construction of pressure dams for pulp, paper and plastic cable.

For ease of installation the WPT S-99 Injection Gun may be used to facilitate compound injection through the filling plug.

Features

- Clean, convenient packaging.
- Available in two sizes.

Applications/Sizes

- Effective with all common plugging methods.
