

Mast Clamps

For permanently suspending dropwire clamps from concrete or metal poles.

The WPT Mast Clamp system consists of banding material and specialized dropwire holders that are used to suspend dropwire clamps from concrete or metal poles or other structures that are not easily penetrated with standard suspending devices.

Features

- Banding material and clasp included.
- All corrosion resistant metal components.

Applications/Sizes

- May be used with all dropwire clamps.
- May be used with metal, concrete or wood poles.
